6.2 - Strategy Development and Deployment

6.2.1 - The institutional Strategic/ perspective plan is effectively deployed

The premier higher education institution, Government College, Mahendergarh is governed effectively and the college administration, in consultation with faculty, students, and other stakeholders, makes plans for the up gradation, addition, and maintenance of college facilities. In the last five years, the main emphasis has been on the major improvement in college infrastructural facilities in tune with the progressive needs of the students. The college administration has achieved commendable success on this key indicator of the perspective plan as mentioned below: A separate Science block of eight labs with two Lecturer theatres and toilet facilities has been added in this block. A ramp has been added to make the college building disabled-friendly and to ease the congestion on the already

existing stairs by providing another entry exit point. An open gym has been created adjacent to the sports ground to provide ready exercise facilities to students and staff. It will facilitate the organization and rehearsal of co-curricular and extra-curricular activities. Many other works for improving college connectivity, daily facilities, conducive study environment, and laboratory and ICT infrastructure up gradation have also been done during the last five years. Thus, the college administration is constantly making efforts to realize the main indicator of the perspective plan, that is, the improvement in infrastructure. It is pertinent to acknowledge here that the parent Department of Higher Education of the Government of Haryana is actively supporting these activities and most of these works got the financial support of an RUSA grant.
